BOARD OF REVENUE
14 MAY 1932
LAND REVENUE AND SETTLEMENT

To The Secretary to Government
Local Self Government Department,
Madras.
Through the Secretary to the Commissioners,
Land Revenue & Settlement, Madras.

Ref. C.No. 2298/32-B, dated 11th May 1932.

Sir,

Enclosures Two (Copies of letters) and one estimate

Spare Copies pp(7-12) cf. 13-16 cf

Anti malarial operations - Revenue officials quarter Siruguppa Town and Taluk - estimate for Rs.6175/- administrative approval of Government - sought for.

Ref:- (1) Siruguppa Inspection report of the Director of Town planning.
(2) Executive Engineer's letter No.3770/2-5-32 and
(3) G.O. No.Ms.2337/P.H. dated 4-12-31.

The Director of Town Planning and myself observed on a recent visit to Siruguppa that the malarial mosquito had found breeding places in pits and depressions in the neighbourhood of the new colony for Government servants; and that sullage water was overflowing from sullage pits and stagnating in the vicinity of houses in the colony. Sketch at (H) / Sent to Govt. pp(5-6) cf

I called upon the Executive Engineer to prepare an estimate for:--

(a) filling up pits and depressions in its neighbourhood and (b) for the construction of cross masonry drains with soak pits in the colony for Government servants. He has sent an estimate for Rs.6175/-. It provides for works the expenditure on which will have to be debited to the P.W.D; Revenue and Local Fund Departments. as shown below.-- pp3-4 cf.

Public Works Department.	Rs. 405/-
Revenue Department.	4730/-
Local Fund Department.	1040/-
Total.	6175

p7 c.f. Sent to Govt.

2. In the interest of the health of the Government servants residing in the Government servants' colony, the work must be executed without delay. I request that Government will be pleased to accord their administrative approval to the estimate and

provide funds to the execution of the works as early as ~~possi~~ possible.

3. The work is also being undertaken in the economic interests of Govenment. As I have pointed out elsewhere Government are paying over Rs.800/- a month in malarial allowances at Siruguppa which can be saved by comparatively small expenditure on anti-malarial measures.

K.K.R.12-5-32. For Collector.

Report to accompany the estimate for Anti-Malarial operations for Revenue officials' quarters at Siruguppa.

--

Amount of Estimate Rs. 6175.

This estimate has been prepared as per the suggestion contained in the report of Inspection of the Director of Town Planing, Madras communicated with the Executive Engineers endorsement No. 11030 dated 9-12-31 and provides for the following.-

(1) To construct cross masonry drains with soak pits for each set of two quarters in rear of Revenue peons quarters and to drain the sullage water to prevent the malodourous state now existing by construction of a continuous masonry drain with one soak pit for each of the blocks as per personal instructions of the -- Executive Engineer during inspection on 8-1-32.

(2) To fill up the pond to the north east corner of the Revenue Quarters compound with sand carted from the vanka close by

and (3) To fill up the two gravel pits by the side of Local Fund road in L.F limits just to the west of the compound.

This should be charged to L.F. as they made the pits in excavating spoil for repairing road. The amount debitable to the various departments concerned is separately shown in the abstract. The work when carried out should greatly improve the sanitary condition of the quarters. The rates are supported by -- detailed data.

Exe. Engineer, Bellary Dn

5

Copy of para 7 of the Siruguppa Inspection Report of the Director of Town Planning.

---

7. The town has grown like most others without any plan and winding lanes of a very inadequate nature have been left between the houses. The Bellary and Adoni roads, which do not penetrate into the town are the only roads worthy of the name. The new colony for Government servants is situated in the open and higher land at the southern extremity of the town but the malarial mosquito has found breeding places in the pits and depressions in the neighbourhood whilst sullage water was overflowing from the sullage pits and stagnating in the vicinity of the houses.

x x x

Copy of Bellary Collector's Ref.C.No.5475/31-B-5. dated 22-11-31 .

Copy of the Siruguppa Inspection Report of the Director of Town planning, Madras communicated to the Executive Engineer.

2. The Executive Engineer's attention is invited to the sanctioned estimate for Rs.12,450/- for the revetment of Bagavadi channel that passes through the town and to the correspondence ending with his letter 8228 dated [illegible]. The malaria in Siruguppa is due to irrigation but it is out of the question to stop irrigation. It is however our duty to keep our channels in such order that the mosquitoes will not breed on their sides. Mosquitoes of course do not breed in running water; they breed in mud and weeds by the side of channels.

3. The Executive Engineer is requested to consider the previous suggestions and those now put forward by Mr. Dann on irrigation in paragraph 18 of his notes and favour the undersigned with his views.

4. In para 7 of his note Mr. Dann observes that the

malarial mosquito has found breeding places in the pits and depressions near the new colony for Government servants. The Executive Engineer is requested to prepare an estimate for filling up these pits and depressions. Government are now spending Rs.354 a month on malarial allowances to Government servants at Biruguppa and if they can make their servants safe by spending a few thousands on filling up pits and depressions and fitting up mosquito-proof netting to doors and windows it is obviously worth their while to do so if only on financial grounds.

ENCLOSURES.

No._____

From the Director of Public Health, R.No.344-1B dated 30-7-1931.
From the Collector of Bellary, dated 13.8.1931.

O r d e r:-

In connection with the necessity to restrict expenditure on Part II schemes provided for in the budget for 1931-32, the Director of Public Health has proposed that the execution of the scheme of anti-malarial measures in Siruguppa area approved in G.O.No.715 P.H., dated 20th April 1931 may be suspended. The Collector, Bellary however is strongly opposed to the postponement of the expenditure of Rs.7,000 provided in the current year's budget for these anti-malarial measures. In the circumstances stated by the Collector, the Government direct that the execution of the scheme should be commenced immediately.

2. As the year is far advanced, the Government consider that it may not be possible to spend the whole amount of Rs.7,000 provided for the work in the current year's budget. The Director of Public Health is therefore requested to surrender the savings, if any, in the

current

Abstract.

Buildings - Residences - Siruguppa-Bellary-Government Officials' residences - Anti-malarial operations - construction of drains and filling up of ponds and pits - Orders.

P.W.D. Public Works and Labour department.

G.O.No.1113, dated 21st December 1932. Read:-

From the Board of Revenue, Land Revenue and Settlement, H.2542/32, dated 2nd June 1932.

Memorandum to the Director of Public Health, No.20594-2EP.H. dated 16th June 1932.

From the Director of Public Health, No.R.64-1/Mal. dated 27th June 1932.

Memorandum to the Director of Public Health, No. 20594-3E1P.H. dated 17th August 1932.

From the Director of Public Health No.R.64-3/Mal. dated 8th November 1932.

ORDER: -

The Collector of Bellary has submitted an estimate amounting to Rs 6175 (Rupees six thousand one hundred and seventy five) for carrying out the undermentioned works at Siruguppa in the Bellary District as anmm anti-malarial measure.

(1) construction of cross masonry drains with soak pits in the rear of Revenue peons' quarters, estimated cost Rs405 (Four hundred and five)

(2) filling up the pond in the north east of the block of Revenue Sub-ordinates' quarters - estimated cost Rs4730 (Four thousand seven hundred and thirty)

and (3) filling up pits and depressions on the road side - estimated cost Rs1040 (One thousand and forty).

2. The Director of Public Health considers that item (1) is necessary from the point of view of general sanitation and that item (2) is necessary as an antimalarial measure as the pond is a very fruitful source for breeding mosquitoes. As regards item (3) it is reported that the District Board has already taken necessary steps and that the majority of these pits have been filled up and the few still remaining are being filled up.

3. The Government approve the proposed expenditure of Rs 405 (Rupees four hundred and five) and Rs 4730 (Rupees four thousand seven hundred and thirty) on items (1) and (2) referred to above. The cost of item (1) should be debited to "41.a. Civil Works - Transferred - Original works - Buildings - F. General Administration" and of item (2) to "22.c. General Administration - Other Establishments (A) Taluk Establishments - Petty Construction and repairs - Voted". Item (2) also will be carried out by the Public Works department, the usual centage charges being levied.

4. Item 1 may be carried out in the current year if funds are available from the existing provision for "Minor Works " under "General Administration".

(By order of Government, Ministry of Public Works)

N.Gopalaswami

Secretary to Government.

To the Chief Engineer (Buildings and Roads) with a plan and estimate.

To the Local Self Government (Public Health) Department.
